

Here is what Eye Care Institute is doing to keep you and our employees safe:

- ✓ We ask patients who are experiencing COVID symptoms to please not come into the office.
- ✓ As per California law, all staff and physicians are fully vaccinated against COVID 19.
- ✓ Everyone in our facilities will be required to wear a mask or face covering. Make sure your nose to chin are completely covered. N95 masks with vents are not sufficient; you will be asked to cover it with a cloth mask or swap for one without the vent.
- ✓ All clinical areas are equipped with air filters using HEPA filtration.
- ✓ The exam rooms are thoroughly sanitized in between every patient visit. In addition, all frequently touched surfaces are sanitized throughout the day.
- ✓ Employees are practicing frequent and thorough 20 second hand washing and using appropriate alcohol based hand sanitizer. Patients are asked to do the same.
- ✓ Hand sanitizers and facial tissues are found in multiple locations throughout the facilities.

Thank you for your flexibility during these unprecedented times. Please stay safe and healthy!
